Subject: "Religious exemption"
Date: Wednesday, August 10, 2011 8:38:57 PM

ALL female employees, whether atheists or practitioners of Voodoo, are entitled to contraception and abortion coverage! Religion exerts much too much influence on U.S. social policy as it is. How many anti-choicers reject "big government" but have no problem with religious leaders dictating personal behavior as proxies for a non-existent deity? My guess: 98.5% of them. Contraception and abortion are private HEALTH issues, and should not be subject to Dark Age superstition!
